Ask a County Materials' representative about the Lifetime Limited Warranty on Elements Paving Stones, or go online to www.countymaterials.com for more information.

Colors shown may vary from actual hues and should only be used as a guide. Refer to actual product samples for final color selection. Because concrete units are manufactured with high quality, naturally-mined aggregates and materials, variations in color or shading should be expected in products that are manufactured at different times and in units having different shapes. This color or shading variation is acceptable in the industry.

Caution: Deicing products may be harmful to concrete surfaces and concrete products, especially when used in excess. Sand is recommended to be used for slip resistance.
